Working with NRCan and SolarBC to Promote Solar Hot Water in BC

**Webinar for ecoENERGY
Service Organizations &
Certified Energy Advisors**

www.solarbc.ca

Installer Training

- Presented by Northern Lights College
- Available only to experienced trades people
- CanSIA 2- day theory course & exam
- WorkSafeBC fall safety course
- Training installations – 2 for plumbers, 4 for non-plumbers

Installer Refresher Course

- Presented Mar 2010
- Hands-on review of roof attachments and pipe routing.
- Review of issues that have arisen often in SolarBC inspections

Improving Installer Training

- CanSIA is changing to NABCEP certification
- Curriculum developed by Association of Canadian Community Colleges (ACCC)
- Pilot the new curriculum as a continuing ed. course at Camosun College
- Develop trades certification for BC

supported by
